

THE 3-PHASE HYBRID

UNIQUE IN
ITS **FAST**
INSTALLATION

EXTERNAL CONNECTORS

No need to open the inverter, resulting in a less time-consuming installation.

GENEROUS CONNECTION AREA

More space for all connectors thanks to a clean and easy to access connection panel.

INTEGRATED SPIRIT LEVEL

More fun mounting the inverter on the wall. Always in balance, making a good impression.

FOR ALL. WHO WANT MORE.

Check out the
installation video

MORE ENERGY SECURITY

Integrated emergency power function for a seamless change into battery operation with real 3-phase backup.

MORE COMFORT

20% of additional power for 5 minutes. For more security of supply and more buffer for inrush currents.

MORE INDEPENDENCE

No compromises needed. Network-independent thanks to stand-alone supply, under certain conditions, all year long.

MORE FLEXIBILITY

Capable of supporting fully unbalanced loads. With three independent phases, a blackout won't cause headaches anymore.

MORE PLANNING SECURITY

A heat pump can easily be connected to the new 3-phase hybrid, thanks to SG-Ready function.

MORE SMART HOME

Convenient use of solar energy. Charging the electric vehicle¹ and raising the internal consumption and increasing transparency.
